## SIXTH ANNUAL

# GI Advanced Practice Provider Course

The role of Advanced Practice Providers (APPs) in gastroenterology is expanding, yet specialized training opportunities remain limited. ASGE offers this annual premier course tailored to APPs of all experience levels, as well as professionals who work closely with them.

With flexible registration options, participants can choose to attend the full course or select specific days, based on their role and professional needs. Whether you're just starting or looking to advance your career, this course offers valuable content for all team members.

## REGISTRATION

	One Day	Both Days
ASGE Members	\$195	\$295
Non-members*	\$295	\$395

\* Includes a complimentary one-year associate membership for APPs.

Practices with three or more participants can contact ASGE at [info@asge.org](mailto:info@asge.org) or [630.573.0600](tel:630.573.0600) for details on a group discount.

Visit [ASGE.org/APP2025](https://ASGE.org/APP2025) for registration and cancellation policies.

## COURSE LEARNING OBJECTIVES

### DAY 1

#### Gastroenterology and Endoscopy Practice: Onboarding, General Practice Principles and Professional Development for the GI APP

- List recommendations for developing optimal GI consultation skills emphasizing proper medical record documentation
- Discuss best practices in preparing the patient for procedures covering aspects such as informed consent, sedation, bowel preparation, and peri-procedural medication management
- Discuss career development and growth for the more experienced GI APPs
- Identify common billing codes for GI consultation, supported by appropriate documentation
- Review best clinical practices for general and advanced therapeutic endoscopic procedures
- Explore case examples of imaging studies with an APP-physician team approach

### DAY 2

#### Gastroenterology & Hepatology Clinical Practice: Case-Based Discussions

- Discuss managing liver conditions to diagnose and treat cirrhosis and its complications
- Understand the management of acute and chronic pancreatitis
- Evaluate GI symptoms to apply strategies for diagnosing and managing diarrhea, bloating, and small bowel disorders
- Review advancements inflammatory bowel disease management
- Explore the management of GERD, Barrett's Esophagus, dysphagia and esophageal perforations
- Learn approaches to managing ingested foreign bodies

# Choose Your Path!

Tailor your participation to fit your individual and practice needs.

## DAY 1

Explore essential topics such as onboarding new APPs, the fundamentals of GI consultations and endoscopic practices.

## DAY 2

Delve into advanced concepts in GI endoscopy, including advanced liver disease and pancreatitis.

Register for Day 1, Day 2, or both—the choice is yours! Sign up today and customize your learning experience.
